Stay an additional night or return with friends and family

Spend an hour, day or week, hiking our 14 miles of designated trails - all in a natural sanctuary geared for all ages and abilities. Observe wildlife, stargaze at our popular Eagle Eye Observatory and lose yourself with an experience of ultimate relaxation and rejuvenation.

The prosperity of the park attracts many seasonal guests. The endangered Bald Eagle resides here from fall to early spring. They can be seen perched along the shoreline or gliding on the wind, joining native vultures and red-tailed Hawks in the hunt for prey.

Experience one of nature's miracles at our Monarch Waystation and view the Monarch Butterflies as they rest here during their migration in April and October. The Waystation is situated behind our Labyrinth, a space for contemplation and appreciation of nature.

As the temperature warms, our resident celebrities, the Black-Capped Vireo and Golden-Cheeked Warbler return to nest. The Resort sponsors several "birding" expeditions into their restricted sanctuary. Painted Buntings can also be found in the Park during this time. Their colored plumes compete with spring wildflowers. Our year-round residents include the graceful white-tailed deer, and endearing Texas armadillos, Road Runners, Rabbits, as well as Feral Hogs, Bobcats, Owls, and more!
